客訴問題記錄

NCMR# 8/4/2015 WeiHan - Screws Indentation due to bad packaging.

30530 螺絲零件包的擺放位置,導致產品有凹痕

NCMR# 11/11/15JT. The kits failed due to Bumper GEM0010P10A does not meet.

33474 020 perpendicularity requirement in some points along the edge.

Non conforming parts measure from .032 to .061. Assembly line was not able to assemble bumpers without leaving a gap between bumper and MAC hosing, for this we cannot use as is.

However PYR did notify GCX of the issue ahead of time, and for this NCMR will not count against PYR but RTV will be created to remove from GCX stock.
